By Hunt, No. 139, authorizing the cause court of Kanawha county to credit the late shoriff of that county with the lax assessed against the

Charleston street railway company; No. 140, relating to the appointment of

commissioners in charcery.

By Mcling, No. 142, to prohibit the sale of spirituous liquors to minors.

By Keleali, No. 142, to prohibit the sale of spirituous liquors to minors.

By Ktser, No. 143, relating to the disturbance of religious worship.

By Ryan, No. 144, authorizing judges of criminal courts to exchange courts with each other; No. 145, relating to the powers and duries of mayors of towns and cities.

By Hughes, (of Kanawha), No. 145, concerning elections by the people.

By Garvin, No. 147, relating to the compensation of witnesses.

By Hughes, (of Kanawha), No. 149, concerning elections.

By Hughes, (of Kanawha), No. 149, concerning elections.

By Doddrill, No. 150, providing for the payment of mileage to the commissioners of the county courts.

The house then adjourned.

AN IMPORTANT REPORT

In Regard to Taxing or Licensing in the

Cincinnail Times Star: In 1893 a group of fifty men, chiefly from eastern cities, interested in the study of social questions, appointed a sub-committee on the legislative aspects of the saloon problem, consisting of President Charles W. Ellot. Seth Low and James C. Carter. They received from the committee of fifty an appropriation of \$6,550. In 1894 this sub-committee engaged Dr. Frederick H. Wines and Mr. John Koren to investigate the working of the liquor legislation in several states of the union. A volume will shortly be published which will contain the results of this investigation. Meanwhile, President Eliot presents, in an article contributed to the February Atlantic, the conclusions of Dr. Wines and Mr. Koren. It must be said that they are rather indefinite. The opinion of these investigators may be embodled in the brief statement that "the law is best which is best administered." One definite conclusion of these gentlemen is that a tax law is far better than a license law. Ohlo legislation is not regarded by them as satisfactory, but they consider it to be an improvement on the license plan. While they find that the restrictions in this state are not sufficiently numerous and in many places are not enforced, one great merit of the law is that it prevents the evil effects of Ilquor legislation on politics. There are no license authorities, no political offices for conducting or supervising the liquor business and only a moderate amount of liquor liftigation. The committee finds that "these are weighty recommendations of the Ohlo law." The whole license system is condemned on the ground that it compels the traffic to be in politics for self-protection; it makes every licensing board a powerful political engine. Edquor Hasiness Cincinnati Times Star: In 1893 a group

DOWN ON TOBACCO NOW.

He Went Up with It, However, When the Stock Rose.
"Nicotine," said the moralist, accord-

ing to the Washington Star, "is a terrible drug." "I sometimes think that it doesn't hurt a person who indulges in moderation, responded the reporter, who was smok-

responded the reporter, who have ling a cigar.

"That's the danger of it. It is the more pernicious because of its many insidious phases. If I had my way I'd abolish every leaf of tobacco from the markets. It's a constant temptation to waste and I am thankful that I never squandered my resources in any such any."

"Nor chewed."
"Certainly not."

"Nor chewed."
"Certainly not."
"Nor used snuf?"
"The idea is preposterous!"
"I suppose you must have saved a great deal of money, then? These small expenses count up very rapidiy. But, of course, a man must invest his money to get as comfortable an income as you appear to enjoy. A friend of mine was telling me about how you laid the foundation for your fortune. It was a small speculation, was it not?"
"Um—yes, it was."
"Would you tell me just how you managed it?"

"Why, you see, a friend of mine who knows all about the market gave me a tip and I bought some stock in the tobac-co trust."

Cost of Education in New York.

New York correspondence Philadel-phia Ledger: Attention is called to the phia Ledger: Attention is called to the fact that the average cost per student of the College of the City of New York—maintained by the city—is \$38.60, and that the average cost per graduate was \$1839. The cost per student of the grammar schools in only \$30. It is argued that it would cost the city less to send students desiring a higher education to Columbia college, paying their tuition there, than to maintain a special, expensive college for them.

FREE CURE FOR MEN.

A Michigan Man Offers to Send His Dis to Weakened Mankind.

There is always more or less suspicion attached to anything that is offered free but sometimes a man so overflows with generosity that he cannot rest until his but sometimes a man so overflows with generosity that he cannot rest until his discovery is known to the world, in order that his fellow men may profit by what he has discovered. It is upon this principle that a resident of Kalamazoo, Mich, desires to send free to mankind a prescription which will cure them of any form of nervous debility; relieves them of all the doubt and uncertainty which such men are peculiarly liable to and restores the organs to natural size and vigor. As it costs nothing to try the experiment it would seem that any man, suffering with the nervous roubles that usually attack men who never stopped to realize what might be the final result, ought to be deeply intrested in a remedy which will restore them to health, strength and vigor, without which they continue to live an existence of untold misery. As the remedy in question was the result of many years research as to what combination would be peculiarly effective in restoring to men the strength they need, it would seem that all men suffering with any form of nervous weakness ought to write for such a remedy at once. A ing to men that all men suffering with any form of nervous weakness ought to write for such a remedy at once. A request to H. C. Olds, Box 1766, Kalamazoo, Mich., stating that you are not sending for the prescription out of idle curiosity, but that you wish to make use of the medicine by giving It a trial, will be answered promptly and without eyidence as to where informatics, came from.

The prescription is sent free and although some may wonder how Mr. Olds can afford to give away his discovery, there is no doubt about the offer being genuine. Cut this out and send to Mr. Olds so that he may know how you came to write to him.

Mexican dollars 50%c.
There was a further decided shrinkage in the volume of business in stocks to-day and prices worked toward a lower level, chiefly as a result of bear aggression. Speculation for a rise was discouraged at the outset by a re-action in the London prices of American securities and the indisposition of commission house clients to trade, left the field comparatively clear for the bears and room operators. Selling by houses with Washington connections was somewhat of a feature, and the specialties, as usual in a narrow market, scored the widest fluctuations. The Industrials as a group overshadowed the railway shares in point of adivity. Sugar was irregular within a range of 1 per cent, and closed fractionally lower. The only news affecting the property was the formal answer of the Woolson Spice Company, to the petition of the Arbuckle interest for a receiver, denying all of the allegations made therein. The duliness of the general market was relieved by one or two special movements, one in Illinois Steel. Illinois Steel broke 4 per cent to 35, on rumors circulated to convey an impression of the company's financial weakness. Official denials were made. A raid on the coalers was made around 1:20 o'clock in connection with the published details of the decision by Jindge Craig rendered at Stroudsburg. Pa. on Monday, sustaining the injunction restraining the heavest consplexionally. Considerable interest was attached to reports of impending meetings of the government representatives in Union Pacific property. There was not, however, even a ripple in the market for the company's securities.

The more extreme declines in the general last included Tennessee Coal and Manhattan 1½; Rock Island, Missouri Pacific, Tobacco 1 per cent.

In the final dealings, a better tone developed.

The closing was steady, The boom market was somewhat weaker.

total sales of stocks to-day were

The total sales of stocks to-day were 153,978 shares.

Evening Post's London financial cablegram: The stock markets were dull and inactive to-day pending the expected bank rate reduction to-morrow. Opinions as to a reduction to 342 are evenly divided. It is not likely, however, that the decision will have a great effect on the markets. No one here really believed yesterday that gold exports for the year were likely at once; all the same, people would not be surprised to see some before very long. New York appears to be buying bonds largely and carrying them here. Americans were lifeless and dull and under the New York parity all day. Copper shares were very strong. The stock exchange subscription to the India famine fund reaches nearly £16,000.

The Paris and Berlin markets were
